Why \$625 Per SQFT

- Reduce Loan and Liability for the temple.
 - Minimize operational cost and reduce burden on future generation.
 - Not planning for sponsorship of individual items .
 - Quotes from different American Indian companies were received for the 51000 SQFT temple including equipment.
 - This was reviewed and analyzed by a professional third party construction company and they provided the dollar figure of \$625/SQFT from ground breaking to occupancy.
 - Every Square foot contributed by a devotee will be distributed evenly to all activities for building this temple.
- * This cost doesn't include the Kumbhabhishekam expenses.
